- Other (describe) _____

Does your child have an Epi-Pen or Twinject at school? _____ Yes _____ No

If yes, where kept at school? _____

◆ ROUTINE BEE-STING PROCEDURE FOR ALL STUDENTS ◆

- * Check Student Health Concern list to see if student is allergic to stings.
- * If student has a known allergy to stings, notify parent immediately using Emergency Medical Authorization form phone numbers: then follow emergency procedure below.
- * If stinger is present, scrape it off with stiff paper or card. Do not squeeze to remove.
- * Clean area with soap and water
- * Apply ice to the sting area.
- * Observe student in office for 5-10 minutes for allergic reaction.
- * If no reaction is present after observation time, student may return to class. Classroom teacher should be notified that student was stung as delayed reactions are possible.

◆ EMERGENCY PROCEDURE FOR ALLERFIC STUDENTS ◆

Please check the appropriate treatment for your child should he/she be stung at school:

- Use the above Routine Bee-Sting Procedure ONLY
- Use the above Routine Bee-Sting Procedure, but ALSO give Benadryl. The school keeps
- Benadryl chewable tablets (12.5 mg each) on hand for emergency use only.

Give _____ Benadryl tablet(s) immediately to my child if stung.
Number

(Usual dose of Benadryl is 1 to 2 tabs for age 6yr-12yr and 2 to 4 tabs for age 12yrs or older)

***NOTE: Parent will need to take child home if Benadryl is administered.

- Use the above Routine Bee-Sting Procedure, but ALSO immediately administer Epi-Pen injection as ordered by physican. Prescription medication authorization form for Epi-Pen must be on file at school.

911 is always called if Epi-Pen is administered.

Special instructions: _____

I authorize school personnel to implement this management and emergency plan as described above.
